

## Ring Out

Take a look at the exit from the ring and make sure that you are able to operate the gates.

❖ Ensure that you have the competitor's lead/treats/toys ready for when they leave the ring. These should be passed to you in one of the Plastic Collecting Baskets by the Ring Steward In.

❖ **At CFGB Competitions, we supply a double gated exit.** When a competitor has completed their routine they will make their way to the ring exit gate. Make sure it is opened timely for them and **allow them to exit the ring.**

❖ **Close the EXIT as soon as the handler and dog have exited from the ring.** This is to allow the judges to start scoring the routine as they must watch competitors at all times whilst in the ring.

❖ **Do not pass anything to them before they have left the ring.**

❖ No food or toy must be passed to them in the ring - this would lead to elimination.

❖ Make sure the basket of their belongings is easily accessible once they are outside the ring.

❖ Some competitors may ask a friend to pick up their things from you.

❖ **Close the Second Exit** as soon as they have moved out and collect the basket for the next competitor.

❖ **And start all over again!**
